ON THE WAR PATH.-Elmand Baike, of this city, visited the Washington Republican the yesterday afternoon and demanded the correction of a paragraph relating to the shooting stillir between himself and Louis E. Payor, in this city, Wednesday night last. Some nostile demonstrations took place between Mr. Curke and Mr. Clarence M. Barton, managing offer, and the police being sent for, quiet was restored. In speaking of the affair, the Wash-

ington Star of yesterday evening says: Belligerent operations between Commonwealth's Attorney Burke, of Alexandria, Va., and Mr. Louis E. Payne, of the Pension office, were to day transferred to this city. The poice obtained information shortly after moon that Barke, who is out on bail, had om i to town with a pistol in his hand and fire tu his eye, intent on vindiewicg his honor. Lieu'en ant Arnold thereupon visited the l'ension office and warned Mr. Payne to beware of Burke. Instructions were also given to the policy to keep a close espionage on Burke if he should appear in the neighborhood of the Pension office. Mr. Burke soon did appear, but failed to make the expected demonstration against the Persion office. He proceeded at once to the Republican office, and lavaded the senctum in great rage. There was no one up stairs, it is stated except the isnitor and a messenger. When Mr. Bar-ton, the managing editor, arrived, he was in-formed in the business edica that there was a man unstairs with a pistol. Despite the protests of his fliends, Mr. Batton made his way at once to the scene of danger. Burke, it is said, with a tragic flutrish, advanced upon the editor, demanding why a promise! retraction had not appeared, and at the same time divested himself. of his coat Barton also pulled off his coat, and it looked as though a deadly combat was about to ensue, when a policeman, who had been sent for by Barton's friends, stepped in an escorted the indignant Barke from the building."

The Westington Critic of yesterday evening

"Mr. Elinand Barke, emmonwealth atterney of Alexendria county, who figured recently in a shooting case in Alexandria, and shot Mr. Payne, ex-county clerk, dropped into the Naand Republican office to day and inquired for Mr. Barron. He believed that Mr. Ber on, in wallog up his [Barke's] shooting case with l'ayae, had reported it incorrectly. Mr. Conger, the business manager, stated that Mr. Barton was not in the office, but while he was taking with Borks, Birton came is and a matince performance ensued, during which Bucke made ineffectual attempts to shoot Barton, and the latter retailed by knocking Burke stiffer than Seau Hickmyn's corpse, when it was bagged by the resurrectionists. In the meantime two policemen righed in arrested Burke and carried him off, and the gentlemen of the Republican establishment breathed easier. Mr. Burke got cu: of the peliceman's clutches by termined to get even with somebody, was on warpath for his old antagonist, Mr. Payne" The Washington Pest of this morning says:

"Mr Edmund Eurke, of Alexandria, the Commonwealth's Attorney, who has recently onen brought into an unpleasant notoriety by one attempted shooting of Mr. Louis E. Payne, of the Pension Cilica, eams over to Washington testerday in rather a beliggerent mood and with apparent intention of finishing up a bad job, the friends of Mr. Payne were on the alert is kept that gentleman out of the way of any uriner hostile demonstration. Burks, who serned that he had been grievously wronged by the Republican in its recount of the affray at Alexandria, then went to the clice of that paper Alexandria, then went to the effice of that paper for the purpose of demanding a retraction or getting some other satisfaction. Here he was controuted by Mr. Clarence M. Barton, who took in the situation at once, and though untaked, faced the music like a man. Burke, who was beside himself with rage, drew a pistol on the editor, but was shortly disarmed and handed over to his friends by the police. There was no control in friends him and unity.

"Mr. Burke, in due course of time, confronted the managing editor in the entry way, just as he was about entering the office to commence his doly labors. The county attorney began opera by relling loudry and striking ou; with mouthful big arm wildly, but he accompli htotaling. He chattered incoherently of rethe avenue in company with two policewho had arrived beforehand to see that the was Rept. He said he net Mr. Batton in this city last week and reused him to correct some (transcent statecars made in an item which appeared in the publicio in reference to his (Mr. Barke's) bouly with Mr. L. E. Psyne. This Mr. arton premised to do. The premised correcion, however, failed to appear, and he v sited Washington yesterday to see Mr. Barton and r. medy. wire about the matter. He went quietly to Barron in the entracee to the office. THE CITY COUNCIL AND THE SALARY BILL. alled meeting of the City Council last o consider the Mavor's velo of the salfor the ensuing fiscal year, attracted do interest. There were no speciators in either Board.

Board of Aldermen was called to order by micutes past eight. A communicatem the Mayor vetoing the recently passed bill on the ground that the bill made no atons for the salaries of corporation officers. hay was not reduced in 1879, and reuding the passage of an itemized bill,

John B. Smoot said the bill vetord by yor had been drawn up in a hurry in acce with a general desire to finish up work of the year at the last meeting of the tell. The Finance Committee had agreed serease the pay of all officers whose salaries e reduced in 1879, and the bill was intended cover that idea. He was not prepared to end the bill, or to say that it was, or that it to tot law, but as there seemed to be seme tobi in regard to ite interpretation he thought would be well to refer the matter to the

THE WEATHER. - At suprise yesterday there was a light wind from the northeest, which seen veered to southerly, and the temperature rose rapidly. In the alternoon there was an exceedingly light shower, which, when over left the atmosphere still more oppressive; but about sun set dark, ominous looking clouds began to bank up in the northern horizon, and an occasional streak of electricity and distant scunds of heaven's artillery denoted the enevitable approach of what, from every indicatior, would prove to be a terrific electric storm. As the beavens became more and more o'ercast and one by one twink ling stars were lost to sight by the black pall which so ratifly intruded itself between them and this mundanesphere, the pulsations of many anxious hearts were supported by the black pall. anxious hearts were augmented doubtless when their minds recurred to the appalling descriptions of western cyclones which they had read but two days previously in this paper, while if there were any in this city whose minds had been in any way impressed by the recent Mother Shipton reare, they, toe, probably indulged in silent raverie. But all such anxieties proved groundless, as the storm, which was very severe in Bellings. in Battimore, Westington and some miles down the river, was extraordinarily tame hereabouts. In a short while the stars again became visible, and throughout the remainder of the right the weather was more pleasant. To-day a refresh-ing northerly breeze has provailed with lower temperature. It is often remarked that while Alexandria always enjoys the beneficent influence of the cool waves following storms in other localities, the isseldem made the theatre of such meteorological disturbances.

RUNAWAY AND SMASH UP .- A horse attached to a heavy wagon, belonging to a tromi | ed to act as judges of the drill contest to take nent chizen of the county became frightened, while standing in front of Mr. Appinh's on lectionery establishment, on King sired, this morning, and ran away. The owner, is at tempting to stop the hots; was knecked dawn and quite back, bruised about the face. The tunaway team came in collision with the entriage of Rev. Dr. Waker, of the Theological xtent that it had to be carried to the repair shops of Measrs. Summers & Bro. The frightened horse was stopped before any other damags was caused, at the career of l'att and King streets, by Officer Crump.

Alexandria's Future Prosperity. To the editor of the Alexandria Gazette:

Reading your editorial in last evening's Gazatte, we were led to think of the present business depression, and, like a'l others, suggest a

Capt. Archer +p. ka truly when, in his address Republian office, and Mr. Button not being to the City Council he said, that we would in, he took a seat in the editorial room. After never presper while we allowed our ladies to spend their money in Washington and other Northern chies. This is true, and the feet that such a scale of affairs exists, is a great wrong. The money is carned here, and it is the right of one merchants to expect it to be

spent here. Little good will stise, however, from knowing that the evil exits, it we don't make an attempt to remove it. Prompt action is what is needed, and the result will soon appear; cur streets will no longer present their deserted appearance; our stores will be thronged with purchasers, and prosperity reign in cur midst.

Let us form a Protective Association. Will not ur honorable Mayor assist us? We would ask that he place on his desk an agreement, to be igned by all who desire to become members of the Association, setting forth that the signers I put under bonds in the sum of \$500 to sgree and premise that they will not allow any of their money to be spent outside of Alexandria for soything required under the heat of living expenses, not to apply, of course, to a merchant buying stock. And further, that after the space of thirty days they will withdraw their patronage from those who fail to sign the agreement; and as all laws are useless unless a penalty is provided, we also suggest the penalty-expulsion from the association and a conse-quent withdrawal of patrousge for any violation

of the rules of the association. We hope that our honorable Mayor, who has shown by his actions in the past that he has the interests of Alexandria at heart, will take hold and once more give us a helping hand; and we feel assured that he will pass from the office he has filled so acceptably crowned with honors and the blessings of a people, grateful for the prosperity restored to them.

Y. M. C. A .- A regular monthly meeting of this association, will be held to-night at S o'clock in the M. M. Church class room. The members are hereby notified that an election will be held at this meeting for officers to serve for the ensuing year. Other business of importance will be presented for consideration. A CARD-It should be generally known that the persons so unfortunate as to lose one or more of their teeth need not wait weeks and months for artificial substitutes and endure inconvenience, dissgreeable changes in voice, facial expression, &c., but may have artificial tests made before and inserted immediately after extraction of their natural teeth. By this mode a better adaptation, a more pleasant expression and a nearer approach toward preserving the natural harmony of the features are secured, and very much of the pain and difficulty experienced in learning to use teeth are also svoided. I have practiced this mode successfully or seven years, and having introduced it here. would be glad to refer any one interested to patients who know of it from experience. In treating the natural teeth my object is to preserve every one that time, patience and modern methods of treatment can save. The use of arsenic in destroying exposed nerves is condemned by the more enlightened of the dental profession on account of its turning teeth dark, inducing ab-seess and finally the less of the teeth. The nerve pulp, which is the source of life to the tocth, should always be treated, when exposed, with a view to its restoration to health. I use no cheap alloys for filling; my fees are much less than are usually charged for the same class of work.
